I specialize in developing cross-platform web applications by integrating Laravel and Vue.js for seamless functionality. I am adept at creating robust and visually appealing websites, utilizing Tailwind CSS or SCSS to craft engaging user interfaces. My broad skill set encompasses PHP, JavaScript, Laravel, Tailwind CSS, Vue.js, and Troubleshooting computers, enabling me to make significant contributions throughout the development process.

EXPERIENCE

MAY 2023 – MAY 2024

WEB DEVELOPER, RAG IT SOLUTIONS

Developed and Maintained Web Applications: Successfully developed and maintained multiple dynamic frontend web applications utilizing Vue.js, ensuring a seamless user experience. Leveraged Vuetify components to create visually appealing and highly responsive user interfaces.

REST API Integration: Efficiently integrated REST APIs to enable robust communication between frontend and backend systems, ensuring data consistency and reliability.

Backend Support with Laravel: Assisted senior developers in backend development using Laravel, specifically focusing on implementing and managing Passport authentication. Contributed to creating secure and scalable server-side logic.

Collaboration and Problem-Solving: Worked collaboratively in a team environment, contributing to code reviews, debugging sessions, and problem-solving discussions. Actively participated in sprint planning and daily stand-ups to ensure alignment with project goals and timelines.
